**Harald Nies - Earthcreator**  
cdr-hn1001

With "Earth Creator" Harald Nies delivered his best album so far. Catchy synthesizer-melodies gently accompanied by electric guitar solos. So far only time not new. What is special about "Earthcreator" is that the musician do not add so much songs but they produced with longer play time. And that's good. Ideas are not just playing dead, but there are always identify new variants and facet. There are also some EM elements of the 80s and 90s flashing. In particular give brief ethnic elements "Earth Creator" a special atmosphere. In sum, the album is very relaxing and has a high daydream factor.

## NEW Amaray-Cases for CDR-Products on MellowJet

From now on all upcoming and some just released CDR's are now delivered in AMARAY-cases. This is because we like to separate our CDR-products from the standard jewelcases. Additionally we will deliver the new booklets in digital-print for a better durability. We are still using the same high quality CDR's. Fast Reflections, Earthcreator and Unabsteigbar are the first of our releases using these new cases.
