
BRAND-NEW CD-RELEASE

Wellenfeld - Phase V

release 2010 | cdr-wf1001 | 73:57 minutes | **OUT NOW**

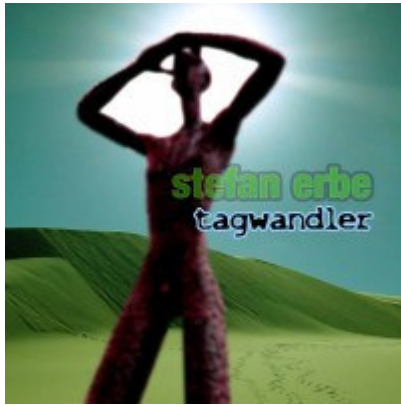

Phase V is, as one can guess from the title, already the fifth album of the electronic-duo Wellenfeld. In the last two years Detlef Dominiczak and Andreas Braun worked on their typical and unique Wellenfeld sound and finally brought it to perfection with their latest album "Phase V". Intentionally they analyzed their last albums with highest precision and created the logical essence. The result is a perfect symbiosis of Cosmic Waves, Fusion, Trip to Illusion and their album Sunshine. Wellenfeld do no reinvent themselves, well done! Pulsating sequences, dreamy-catchy melodies and always a gentle rhythm alternate with predictable, hypnotic patterns. First versions of some songs from "Phase V" had been presented to the fans previously at the concert at Planetarium Bochum beginning of 2009 and at the Indoor Cycling Marathon in December 2009. All songs of this album are completely new compositions. In opposite to the previous albums all songs of "Phase V" have been crossfaded smoothly and offer 73 minutes auditory pleasure without breaks. "Phase V" is a comforting and very catchy electronic album. An absolute must...

Erez Yaary - Darklight

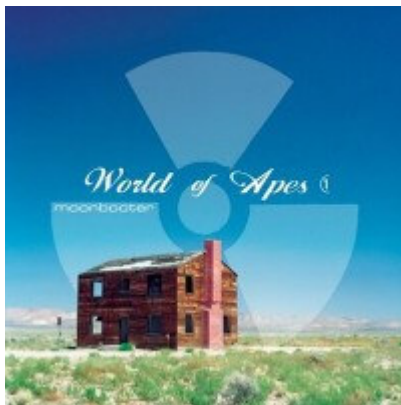

release 2010 | cdr-ey1001 | 56:44 minutes | **OUT NOW**

Darklight is an album of contrast. From the dark atmosphere and sequences of the track dark, to the wide soundscapes of the track light. For me, this album took the longest to finish as I wanted it to sound exactly as I had in mind, and for this I had also built a complete analog modular synthesizer that I could use to create all the sounds and timbres that make up darklight. darklight ventures further into the realm of analog-driven electronic music by having the modular synthesizer take charge of more than half of the sound and all sounds are original patches. Very few digital and software instruments took part in this album.

Stefan Erbe - Tagwandler

(P) by blueroom | CD 916-117 | release 2010 | 60:26 minutes | **OUT NOW**

moonbooter - World of Apes 1

the new-cle-ar CD-Album | cd-mb1001 | 69:40

first and official feedback to "World of Apes 1":

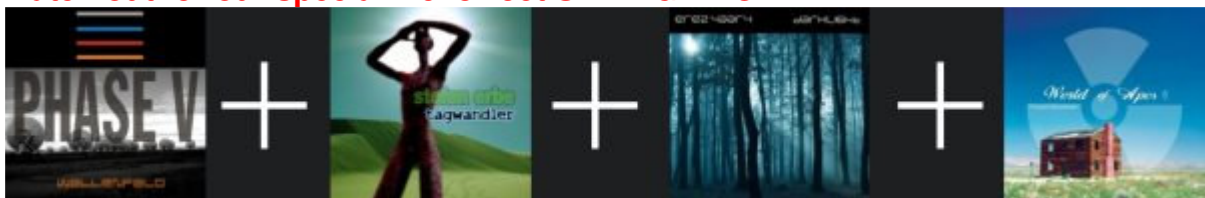

[...The latter is also due to the excellent and transparent sound quality. All in all, Mr Moonbooter doesn't make things too hard with his so-called "new-cle-ar" album, which I trust will be liked by the average listener of modern electronic music and beyond.]
Bert Strotenberg, March 2010

[... geiler Rhythmus, melodisch und enorm positiv! Das Finale setzt sich aus melodramatischen, heroischen Elementen zusammen. Ein würdevoller Abgang. Ein aufregendes Album.] **Will Lücken, April 2009**

[... Klasse CD, da geht kein Weg vorbei. Diese CD sollte jeder EM-Hörer haben ! Ich freu mich auf die Fortsetzung.] **Uwe Sasse, April 2010**

[...Wer Moonbooter's Musik kennt und sie mag, dem kann ich das neue Werk wieder uneingeschränkt empfehlen. Es tut gut zu sehen bzw. zu hören, dass man sich auch in der Elektronikmusik mit ernsten Themen auseinandersetzen kann, ohne Lehrmeisterhaft zu wirken. Die Musik ist für sich sehr eingängig und kann auch ohne Gedanken an den atomaren Wahnsinn genossen werden. Und wer sich dem Thema etwas mehr öffnen mag, der hat auch die Chance dazu. Ich für meinen Teil hoffe, dass es eine Fortsetzung geben wird.] **Stephan Schelle, April 2010**

watch out for our special MellowJet SPRING-PACK:

4 CD/R albums together for 44€ + usual shipping-costs

IMPORTANT REMINDER

You can download nearly all products directly in our webshop as MP3 incl. Artwork. The CD-price is automatically reduced by 2€ and there are (of course) no shipping-costs!

EM-Podcast | New show available every month. Powered by MellowJet-Records
